ABOUT ME

I am a full-stack developer, encompassing proficiency in HTML, CSS, JavaScript, PHP, Symfony, MySQL, Figma, Trello, React, Tailwind CSS, Drupal, CI/CD, and Mocha. Additionally, I possess familiarity with Node, MongoDB, and Bootstrap, further enhancing my toolkit for comprehensive web development projects. Furthermore, I hold a Master's degree in Business Administration, specializing in international business, which provides me with a unique perspective and skill set.

I'm excited about mixing my business skills with what I'm learning in tech. The world of making websites keeps changing, and I find it super interesting. I'm always curious about new things in web development.

When I'm not studying, I love exploring nature. I also play sports, spend time gaming on my PS4, and hang out with my family and friends.
